	Note: The term <i>country</i> , used interchangeably with <i>economy</i> , does not imply political independence but refers to any territory for which authorities report separate social or economic statistics. Income classifications set on 1 July 2017 remain in effect until 1 July 2018. Argentina, which was temporarily unclassified in July 2016 pending release of revised national accounts statistics, was classified as upper middle income for FY17 as of 29 September 2016 based on alternative conversion factors.
